### DESCRIPTION

This project provides for the renovation and replacement of major pool operating components. These items include: resurfacing the pool walls and floors of the main and leisure pools; replacing the entire tot pool and the decks; replacing underwater lights and enhancing overhead lights; refurbishing filters, disinfectant equipment, shower fixtures, wall surfaces, fiberglass slides and diving towers; resurfacing parking lot; and other improvements to the complex such as adding shade shelters and pool play features.

### JUSTIFICATION

The Upper County Pool is the oldest pool facility yet to be renovated and is still operating with original equipment and systems which have exceeded their economical and reliable life-cycle. This pool serves 30,000 visitors each season, including 8 camps, 12 playgroups, 10 daycare groups and a swim team of over 200 children. As a regional pool it is imperative that this facility remain in service each summer. A timely off season renovation will prevent a lost season due to a system failure.

### Plans and Studies

"Aquatic Facility Plan FY97-10," Montgomery County Department of Recreation, June 1997; and "Aquatic Facilities 2003 Update," December 2003. Project preliminary design was completed in the Facility Planning: MCG project in the FY03-04 timeframe, prior to the establishment of this stand-alone project.

### STATUS

Planning stage.

### APPROPRIATION AND EXPENDITURE DATA
